Does filing only apply to certain territory (territories) or certain classes? If so, specify: This filing impacts our CyberRisk Liability policies for all Public, Private or Non-Profit companies that are not Financial Institutions.

Brief description of filing. (If filing follows rates of an advisory organization, specify organization): This filing reflects the results of analyzing three years of experience since the plan was originally introduced in 2011 (2010-07-0128). The rates in the submitted rate plan were established to be adequate, not excessive, or unfairly discriminatory. The rate plan changes consist of revisions to the base rate schedule and Class of Business changes for Public, Private and Non-Profit companies. The proposed base will be increased by 20% for policyholders with less than \$25M in revenue. Insureds with more than \$25M in revenue will see smaller increases or decreases to their base rates based on size. This filing introduces a class of business factor for Educational Institutions, which had previous been listed under Business, Personal, and Professional Services. It also revises the factor for Hotel, Hospitality, and Restaurants to be consistent with other retail exposures. Both classes now have a factor of 1.20. See the Actuarial Memorandum for a more detailed description and overview of this filing.

\*Adjusted to reflect all prior rate changes.

\*\*Change in Company's premium level which will result from application of new rates.
